 - Phone Number: 1 423-815-1480
 - Conference ID: 263606320

This meeting is not required by statute, however, it is a good practice to get landowners together with the Drainage Authority, Contractor, Utility Owners and Managers, and Engineer to discuss the proposed project schedule, construction protocol, and procedures along with what landowners should expect during the project construction. Other items discussed at this meeting will be utilities that will be encountered, contact information, subcontractors, materials, and completion date.

All landowners within the system are strongly encouraged to attend to discuss the upcoming construction project. If any other landowners have private tile maps of their land or any other useful information, they are encouraged to bring these for the contractor's and Engineer's information.

Sincerely,

Chuck Brandel - Project Engineer
